2. Deposit the fee to Hang Seng Bank (A/C No: 222 - 005340 - 001) and sent the bank-in slip to registration@ifma.org.hk or fax to (852) 2512 0555.

Terms & Conditions:

1. Unless specifically identified as included in the admission charge, all costs for transportation, food and other incidental costs will be at the participant's expense.
2. The organizing parties accept no liability for any eventuality that may occur to affect travel itineraries before, after or during the event, or for any incident or accident, should any occur.
3. If typhoon signal no. 8 or above or the black rainstorm warning signal will be hoisted 4 hours before the event starts, the event would be cancelled or postponed. Participants will be informed of the cancellation or the re-scheduled date of event in due course. The IFMA Hong Kong Chapter reserves its right to cancel or to change the speakers without prior notice.
4. Cancellations must be made at least 7 business days prior to the event. Otherwise, full price (HK\$200) will be charged for your late cancellation. If you are unable to attend, we welcome a delegate to attend on your behalf. Refunds will not be given for no-shows after the event.

Programme Highlights:

Castle Peak Power Station (CPPS) is located in the New Territories of Hong Kong and is one of the largest coal fired power stations in the world. It is owned by the Castle Peak Power Company Limited (CAPCO), a joint venture between CLP Power Hong Kong Limited (40%) and ExxonMobil Energy Limited (60%), and is operated by CLP. Two of the units can burn gas as a back up fuel.

CPPS was constructed in the 1980s as the means to meet high growth in Hong Kong's electricity demand and to change CLP's primary fuel from oil to coal. With the Emissions Control Project for reducing sulphur dioxide and nitrogen oxide emissions phasing in from 2010, together with the ongoing emissions management measures in place, these bring the CPPS to be one of the cleanest coal-fired power stations in the world.

'**ElectriCity**' is CLP's flagship educational facility in Hong Kong. The centre features interesting and informative displays that explain the fundamental principles of electricity, power generation, transmission and distribution. In addition, visitors get to learn more about the fuel sources currently used in Hong Kong.

Itinerary:

- 09:00 Assemble at Tsuen Wan MTR Station (**Exit C**)
- 10:00 Arrives Castle Peak Power Station by coach
