FACILITY MANAGEMENT CONFERENCE

Learn • Connect • Advance

First held in 1993, IFMA's annual conferences are of proven success and highly appraised in the region. The Hong Kong Chapter of the International Facility Management Association (IFMA) is pleased to announce the IFMA's Integrate 2016 Facility Management Conference will be held on **Thursday, May 5, 2016** at the Hong Kong Convention and Exhibition Centre, co-located with Build4Asia, the region's leading Building Technology, Electrical Engineering and Security Show.

This one day facility management conference features a variety of classes targeted specifically at **FM and Workplace Strategies Best Practices**. It will widely cover different infrastructure environments, sustainability and building resilience for the future. The current emerging business trends and the slowdown of real estate development enables workplace occupiers to become more and more sophisticated in delivering facilities management within their organizations. Last but not least, the **IFMA 24th Annual Dinner** will be held after the conference in the Hong Kong Jockey Club to round off a memorable day.
