

GAS & RENEWABLE ENERGIES

TECHNICAL VISIT TO CHENGDU

19 — 24 September 2026 | 6 Days | All-Inclusive Package

Explore China's Cutting-Edge Clean Energy Revolution

An exclusive technical tour for engineers to witness breakthroughs in hydrogen, renewable energy, molten salt storage & PV manufacturing

DONGFANG ELECTRIC	SICHUAN TOWNGAS UNITED ENERGY	LONGI GREEN ENERGY
Machinery Plant Boiler Plant Hydrogen Energy Industrial Park	500,000 m ³ /day natural gas facility Integrated LNG/H ₂ refueling + EV station	Polysilicon Base Alkaline Water Electrolysis System
Clean power generation, molten salt & hydrogen storage systems	Helium from natural gas / methane to protein / energy storage technologies	Full green hydrogen production chain & PV manufacturing

ALL-INCLUSIVE TOUR FEES

HK\$8,600

/person

Single Room Private Occupancy

PACKAGE INCLUDES

Round-trip HK-Chengdu
Economy Airfare

5 Nights 4-Star
Hotel Accommodation

Daily 3 Meals
(Breakfast, Lunch,
Dinner)

All Local Ground
Transport in Chengdu

Group Travel
Insurance
