- Energy services and project finance
- Commissioning management for energy efficiency

Co-Organizers:

Carbon Audit *Mandatory Building Energy Code*

HKAAEE is very pleased to celebrate its 25th Jubilee Year as it was established in 1982. The international conference is the most important event of the year. It is the truly comprehensive conference where you can fully assess the "Future Energy Vision" – and see how the economic forces, new technologies, strategy implementations and industry trends all merge to shape your decisions on your energy and economic future. International energy experts are invited from all parts of the world, such as USA, UK, Germany, Japan, Mainland China and Hong Kong.

Who Should Attend

Engineers, surveyors, architects, designers, researchers, academics, professionals, management and practitioners involved in wide range of disciplines associated with energy engineering.
