

Seminar on The Latest Energy Savings Opportunities in Commercial Buildings

Date: 27 July, 2007

Time: 6:00 pm to 7:30 pm

Venue: Lecture Theater 6, Academic Building, City University of Hong Kong
Kowloon Tong

Speaker: Professor SCOTT C. DUNNING, Ph.D., P.E., C.E.M. (USA)

SCOTT C. DUNNING, Ph.D., P.E., C.E.M. is the Executive Director of the Advanced Manufacturing Center at the University of Maine where he leads energy assessments and production line development for industrial manufacturers. He was the founding director of the Industrial Assessment Center at the University of Maine where he directed over 200 audits of industrial facilities throughout New England. He previously served as a Program Manager at the U.S. Department of Energy where he assisted in management of the Industrial Assessment Center program and reported to the U.S. Congress regarding implementation efforts of the Energy Policy Act of 1992. He is a Professor of Electrical Engineering Technology at the University of Maine where he teaches courses in power systems analysis, energy conversion and engineering economics.
